

CLOTHING SUGGESTIONS FOR YOUR HEADSHOT SESSION

Kids: Basically, come in a pair of jeans and bring several different tops. The tops should be solid, bright colors (no white or black).

Suggestions on what to wear:

- Clothing that is cleaned, pressed, ironed, wrinkle-free, looks like you just bought it
- Solid colors
- Bright colors
- Overalls for kids under 7
- Barrettes and clips for hair (nothing sparkly or colorful - it should not be noticeable in hair)
- Hair rubber bands, hairbrush, hairspray
- Overall, go for the "all-American" GAP look -- you should look like you just stepped out of a MACY's catalog or a JIFFY peanut butter commercial, for example
- Clothing from The Children's Place, Limited Too, Gap, Old Navy and Kohls works well
- Consider buying an outfit for the photo shoot and returning it when you're done
- Don't worry about shoes - you won't see them
- Hair should be freshly washed and out of eyes.
- If a makeup artist is not provided: apply some makeup but keep it very natural: lipstick, mascara, eye shadow. Stay away from bright pinks, purples, greens

What to avoid:

- No solid black
- No solid white
- No gray, beige, cream or dull colors
- No busy patterns
- No logos
- No turtlenecks
- Nothing that will distract from your face (skinny stripes aren't so great either)
- Nothing super trendy
- Stay away from jackets - especially bulky ones

Teens/Adult:
